Greetings!

Pathology is fundamentally clinical knowledge service for modern medical practice and health care. Diagnosis based on pathological tests is essential for prevention, early detection, clinical procedure and treatment for health challenges.

Pathology is the backbone for medicine, surgery, paediatrics and gynaecology for understanding those clinical subjects and practitioners should be well versed with the basic pathology of diseases to conclude and treat various diseases.

It was in 2008 that we started to get accreditation of our laboratory from NABL. I am proud that In 2010 Our Laboratory services under one roof as per ISO-15189-2012 got the certificate of accreditation for Quality, Speedy and accurate reports for Clinicians to conclude and render fast, best and effective treatment to our patients.

Recognition

- First in Gujarat to start FNAC services for early cancer detection since 1988
- Accredited by NABL as per ISO 15189, since 2010 and first pathology department in Government Public Health care facility having accreditation for over 107 Tests and no of tests (Scope) increasing with each Re-Assessment.
- Awarded for SKOCH order of Merit in December 2015, for Laboratory Information System.

Special Features

- Single window collection and dispatch system for the tests performed and reports for OPD/IPD patients.
- State of the Art diagnostic and Research Laboratory with all sophisticated and advanced equipment for diagnostic excellence in patient care.
- Highly customised and Integrated Laboratory information system with all advanced features-a way towards paperless green laboratory.
- Paperless Quality Management System achieved since 2016

Dr. Hansa Goswami

Professor & Head, Dept. of Pathology,
Director, Post Graduate studies & Research,
B. J. Medical College, Ahmedabad.
